KARRIERE BREMEN
DAS JOB- UND AUSBILDUNGSPORTAL

Working Student Software Engineer (m/f/d)

HANSA-FLEX AG, 28307 Bremen

drives us to continually advance our Warehouse Management System (WMS) solutions. We are currently expanding our in-house Research and Development (R&D) team in our headquarter in Bremen and are seeking an open-minded **working student as a Software engineer (m/f/d)** with basic expertise in computer science to join us in shaping the future of logistics automation.

Your tasks:

- **Software Development:** Support the development team in writing, maintaining code and algorithms for logistics and production planning processes
- **WMS Integration:** Collaborate with cross-functional teams to integrate our software with Warehouse Management System (WMS), Enterprise Resource Planning (ERP) and other intralogistics solutions
- **Database Management:** Support with management and optimization SQL databases to store and retrieve critical data efficiently
- **Testing and Deployment**: Manual and automated testing of business processes, software modules and tools
- **Documentation:** Create and maintain technical documentation, including code comments, user guides, and system architecture diagrams
- **Technical Support:** Provide technical support to customers and internal teams, addressing and resolving software-related issues promptly

Your profile:

- Student in Computer Science, Software Engineering or a comparable education, Prerequisite: valid certificate of enrollment
- Open-minded, problem solving, good communication, willingness to learn
- Experience with C++, Python or other imperative programming language
- Basic knowledge of SQL (MS SQL Server, PostgreSQL
- Communicative English language, German is a plus

KARRIERE BREMEN
DAS JOB- UND AUSBILDUNGSPORTAL

We offer:

- We offer you the opportunity to work on exciting projects in a modern working environment with a motivated team.
- You can expect a familiar working environment in an internationally active company.
- We provide intensive induction training and support your personal development.
- Our working atmosphere: Appreciation of our employees is just as important to us as collegial and personal interaction, which we promote through joint activities, for example.

Interested?

Then we look forward to receiving your complete application documents. Please send us your documents via our online application form.
